## RACE COMMENTARY

RACE 1	
LADBROKES SAME RACE MULTI MAIDEN, 350m	
<p>At the beginning of the race when the Starter indicated for the lure to be started the lure driver activated the lure but there was a short delay before the lure actually began to move. The greyhounds were in the boxes for approximately 15s between the green light being activated and the boxes opening. The giving of all clear was delayed whilst Stewards considered whether there had been any detrimental effect on the race due to the delayed movement of the lure and also spoke to the trainers concerned. Whilst a number of trainers were irritated by the delay none raised concerns along the lines of a No race or any dogs being sufficiently affected to be declared a Non Starter. After examination of the race footage Stewards were satisfied with the start and the all clear was given.</p> <p>Prior to the start of race 2 the lure was stopped and started on a number of occasions to test its operation and delay issue did not reoccur.</p>	
<b>2 Sweet Ethics</b>	Came together in the later stages of the rear curve losing momentum.
<b>4 Shades Of Gold</b>	A post race urine sample was collected.

RACE 10	
WOW AT STUD, 350m	
<p>The trainer of #1 raised a concern with Stewards that prior to the start the starter kicked the boxes. A review of the footage showed the starter brushing / poking the rear of one of the outer boxes with his foot prior to the activation of the green light and approximately 12s before the boxes opened. Stewards spoke to the starter who stated that he used his foot to close the #5 box after the greyhounds tail which was initially poking out was removed leaving a gap. The Starter was advised as to future actions. Stewards then considered whether his actions could have had on the race and decided that would have had no effect on any runners.</p>	
<b>1 Redshift Delta</b>	<p>The greyhound appeared to stumbled (or potentially somehow briefly got stuck) exiting the boxes losing significant momentum. The #1 box was checked by Stewards immediately post race and nothing untoward was found.</p> <p>A post race veterinary examination was carried out revealing no apparent injury</p>
