RACE COMMENTARY

RACE 1	
LADBROKES HUB MAIDEN, 440m	
1 Marshall Kade	Began the race as a well-supported favourite. After obtaining the lead in the early and middle stages of the race, midway between the turn out of the back straight and the turn into the front straight came together with another runner when tightened for room and was obliged to shift off heels losing momentum.
7 Black Jack Kade	<p>Immediately after box rise, the greyhound turned its head and abruptly shifted inwardly coming together with another runner before straightening up. A post-race veterinary examination revealed no apparent injury. Stewards interviewed kennel representative Mr Anothony Lord expressing concerns with the greyhound's mannerisms shortly after the start, whereby Mr Lord stated in his opinion the greyhound was looking inwardly for the lure. His comments were noted. After reviewing all available video footage, considering submissions made by Mr Lord and the veterinary findings, Stewards could not be comfortably satisfied the greyhound had breach any racing rules.</p> <p>Notwithstanding this, Mr Lord was advised an official warning would be placed on the greyhound's record with a repetition of today's incident may result in further action taken. When deciding if a penalty was applicable, Stewards were mindful of the greyhound's inexperience, with today being its first official start under race conditions.</p>

Making the first turn eased within its action and yielded ground before a short distance later when rounding the home turn eased again significantly before pulling up just prior to entering the turn into the home straight and ran back in the opposite direction. A post-race veterinary examination revealed no apparent injury. Stewards interview trainer Mrs Lisa Worthy regarding the performance of the greyhound, specifically in the manner where the greyhound eased, pulled up and ran back in the opposite direction. After reviewing all available video footage, taking into consideration the submissions made by Mrs Worthy and the veterinary findings, Stewards issued an endorsement for Failing to Pursue in accordance with GAR124. The greyhound is now suspended from racing at Goulburn for a period of 28 days and until the completion of a satisfactory Steward's trial in accordance with GAR132.</p>

RACE 10

GOULBURN GREYHOUNDS AS PETS, 350m

2 Pepper Kade

When questioned regarding the apparent improved performance, trainer Mr Andrew Rowe was pleasantly surprised by today's performance as the greyhound is a new kennel acquisition. He added the greyhound has had a number of minor injuries recently and in his opinion, the greyhound has only just overcome these. He further added the greyhound has recently trialled at Goulburn in an impressive time, adding it was aided by today's box draw being drawn closer to the rail. Stewards noted his comments. A post-race urine sample was obtained.
